SHOPIFY Admin: Lay-Buy App – Your Shopify Orders

The admin user monitor, track or revise the payment plans for any Lay-Buy Shopify order.

The admin user clicks on  to view the Lay-Buy order's payment plan.

The Lay-Buy App is fully integrated into the Shopify orders and statusing – so when a final payment is made by customer the payment plan moves to 'complete' status in Lay-Buy App, and the order residing within merchant's 'orders' moves to 'Paid' status for merchant's fulfillment. These updates to the order status are automated via a cronjob that runs on our servers. But if a merchant wants to fulfill an order immediately, they then click 'Fetch Reports' and then Update Shopify Order Status'.
